## The Heckscher Museum of art Summer Student Art Exhibition

“Community ArtSense”

**August 15 – 30, 2006**

**Reception: Tuesday, August 15, 5:00-7:00 PM**

The third annual “Community ArtSense” exhibition highlights the extraordinary work of talented young artists who participated in The Heckscher Museum of Art’s unique “Summer ArtSense” workshop series during summer 2006.

Young artists participating in ArtSense discover the multi-faceted world of art through an array of hands-on activities while enjoying an insider’s look at exhibitions on view at the Museum. Students are given personal attention and encouraged to create their own responses to the works on view while experimenting in a variety of media and techniques. This summer, young artists were inspired by the special exhibition “Man Ray in the Age of Electricity,” featuring rayographs and solarized prints by acclaimed artist Man Ray. Up to four student artworks from each session of Summer ArtSense were selected for inclusion in this special culminating exhibition.

A reception for family and friends will be held in the art gallery on Tuesday, August 15, 5:00-7:00 PM.
